

Health Care for ALL in Pennsylvania

National Day of Protest Against Health Insurance Companies

RALLY - JUNE 19, 2008 - 12:00-1:00 p.m.

**State Capitol Steps, Harrisburg
(3rd & State Streets)**

Join nurses, doctors, patients and Americans of every stripe protesting in memory of the countless victims of the insurance industry. Protests are being held around the country on a day when 38,000 health insurance lobbyists are having their annual convention in San Francisco.

Our Healthcare System is *Not Working*

Over 47 million are uninsured; millions more have inadequate coverage. Sadly, the U.S. health system spends a higher portion of its gross domestic product than any other country but ranks 37 out of 191 countries in its performance, according to the World Health Organization.

It's Time for Guaranteed, Comprehensive, *Civilized* Healthcare for ALL

Comprehensive, quality, affordable care that is publicly administered and privately delivered would replace profit-driven insurance companies with a single public agency that would distribute healthcare dollars to *private* healthcare providers. This system would eliminate expenditures of huge amounts of our healthcare dollars on activities that have nothing to do with care: overhead, medical underwriting, billing, sales and marketing—and huge profits and excessive executive pay.

The moral test of government is how it treats those who are in the dawn of life, the children; those who are in the twilight of life, the aged; and those who are in the shadows of life, the sick, the needy and the handicapped.
